SELECTION CRITERIA FOR THE "MIDWEST JUNIOR ELITE TEAM"

The Midwest Junior Elite Team is selected annually at the Midwest Regional Championships and consists of 16 members (8 girls and 8 boys). The team is selected from skiers in Boys/Girls 2-3 with at least one year eligibility remaining. Selection is based on a formula that combines the NOPS score of the skier's National Rankings Average as of the current Regional Championship and Midwest Regional Championships performance. Each score is weighted at a 60/40 percentage respectively.

Eligible skiers will be selected from each division using the above mentioned formula as follows: The first selection shall be the skier with the highest Overall (S, T and J) NOPS score. The second selection shall be the skier with the highest combined NOPS scores for any two events, unless that skier has already been selected, in which case the skier with the next highest combined NOPS scores for any two events shall be selected. The third selection shall be the skier with the highest single event (S, T or J) NOPS score, unless that skier has already been selected, in which case the skier not already selected with the next highest single event NOPS score shall be selected. The fourth selection shall be the skier not already selected with the next highest overall NOPS score. The 2016 Midwest Junior Elite Team will be announced at the Midwest Regional Championships Banquet. For more information, please contact Dawn & Darr Leutz 217-245-6129 or dleutz@mchsi.com/dleutz@msn.com.

LOC's Please Take Note of 2016 Sanction Deadlines

For the past several years we have used a December 31 deadline to sanction events to assure inclusion in the Regional Guide. This results in 85% of the sanctions being initiated between Christmas and New Year's Day. This has created a burden on the volunteer who compiles all of the sanctions to develop the Guide and get it to the printer by the deadline. One of the major components is simply getting a count as to how many sanctions will be included in the guide. The other major component is then adding the content for each tournament. In an effort to spread out the work a little we are going to move the sanction deadline to December 15 starting in 2012. This does not mean that you need all of your content included. If you will simply initiate the sanction process by setting up the name and date of the tournament, that will allow for the correct number of events to be provided for in the Guide. Then between December 15th and January 10th you may go back in and edit your tournament to include all of the information you want to be in the guide. While we have moved the date up 15 days, we have also allowed an additional 10 days to fully complete. We understand that many of you need to wait to see what happens at the State meetings but feel this provides enough time after the meetings to get started. Also it would be greatly appreciated if you can sanction early and complete the update early to ease the workload compression for the volunteer who also has a real job. Thank you for your consideration of this request. Another tip is that each sanction is allocated a quarter of a page. So the more information you wish to be in the guide, the smaller the font will be.

Entry Qualification Requirements

Advancement to Regionals for 2015 will be based on the Rankings List. All skiers meeting the following criteria Thursday morning July 16, 2014 (the official Cut Off Date) automatically qualify for Regionals.

Level 6 in any event or overall except for Mens 3-4 slalom in which a skier must be ranked Level 7:

At the cutoff date, July 16th, the Rankings List Average of the last ranked skier in each division in slalom, tricks, jump, and overall will be established as the Cut Off Average (COA) for that level.

After the Cut Off Date, July 16th, any skiers who did not receive an automatic invitation may still qualify for Regionals in any event or overall through three Last Chance Qualifying methods (LCQs):

- (1) any skier who increases his average equal to or above the COA anytime after the Cut Off Date up until registration closes for his event at Regionals;
- (2) any skier who records a score equal to or above the COA at State Championships or at any tournament class C or above event between the cutoff date and regionals;
- (3) any skier who places in the top three (3) at State.

Any skier who has a valid Open/Masters rating/ranking, or is qualified for nationals at the cut off date is automatically invited to Regionals as well.

Midwest Collegiate Water Ski Association

If you could combine your passion for watersports with the “best years of your life” you would have collegiate skiing. Collegiate skiing combines the competition of USA waterskiing with the team aspect of collegiate togetherness that creates bonds and memories sure to last beyond the season. There is collegiate skiing all across the country but I am talking about one specific region for this skiing revelation, Team MCWSA located right in the heartland of America – the Midwest.

MCWSA (Midwest Collegiate Water Ski Association) water ski tournaments are hosted by schools all over the Midwest during its main and off seasons (Fall and Spring, respectively.) Schools will combine its skier's talents to face off against schools all across the Midwest. Teams will be made up of the top 5 men and top 5 women for each event also known as the “A” team. Each of the 5 skiers will score individually for their respective team which will ultimately contribute to team totals. Skiers outside of the top 5 from each team will make up the “B” team who will also compete along side the “A” team. Both of these teams will experience competition no matter what kind of skier you are!

Team Midwest is made up of two conferences, the Great Plains and Great Lakes. The Great Lakes teams are schools in Ohio, Michigan and Indiana and Great Plains is Minnesota, Wisconsin, Iowa, Nebraska, Missouri, Kansas, Illinois and Colorado. We are not limited to these states or schools with teams already; we are constantly searching for new schools and skiers looking to join MCWSA.

Competition gets fierce as every Fall season teams compete for 7 automatic and 3 additional pending spots to nationals every year to duke it out against the very best in the country. Teams will look to qualify for Conference Championships, then Regionals and then finally to the granddaddy of them all, Nationals. Besides this main stage of competition, every spring season just after summer recess is an All-Star tournament hosted for each region to send their 10 most decorated skiers in each event, men and women, to face off against other regions skiers in battle for the best region in the country.

The beauty of this sport isn't limited to what happens on the water but also the time spent with friends and fellow water skiers from all over. Whether skiing is a new passion or one you have dedicated a lot of your time too, the collegiate water skiing scene is as good as they come.

As a current member and alumni of collegiate water skiing I can only exercise my most sincere recommendation to all the men and women in and almost in college to experience this for yourself. Any questions, from small details to personal anecdotes, should be directed towards our website or board members to facilitate collegiate skiing apart of your collegiate experience.
